

K-LOVE radio is an important part of my daily life.
I wake up to it on my alarm clock each day, and I listen to it
on my way to and from work and during my workday as I can. I truly believe
that K-LOVE plays an important role in my
local community and in the community where my job is located,
also. This station's format supplies a positive source of music,
upholding strong moral standards. It is a welcome venue
especially with the content of some of the existing alternatives.
Please do not allow anything that would alter or impair the
reception of this vitally needed service.
